

COURSES AVAILABLE FOR ENRICHMENT (Non credit)

All of the counseling degree courses are available to be taken for enrichment except for CNS 530-CNS 534 Internship Case Conferences, CNS 580 Individualized Research, CNS 512 Group Counseling and CNS 525 Tests and Measurements.

The fees for taking courses for enrichment vary according to status. To sign-up for enrichment courses, an enrichment form for each class needs to be completed. This is also registration, and must be done each time a new class is started. Enrichment forms are available from the Student Services Department in Armstrong Hall.
